**TERMS:**

Your school is under no obligation to renew your licence if you do not wish to continue using our software in future years. To help prevent unauthorised copying, please do not allow students to borrow the *Home Version*. If you misplace your *Network Version* CD-ROM we will replace it free of charge (one per year).

Additional *Home Version* CD-ROMs are available for \$25.00 in 2011. Prices are going up in 2012. If you would like to make the program available to parents, please collect orders and let us know how many CD-ROMs you need. We will then forward the software with an invoice.

We are developing new web-based programmes and would like some feedback. Is your school ready to play THE SPELLING CENTRE online?
